

Professional Stand System Welding Line

The task:

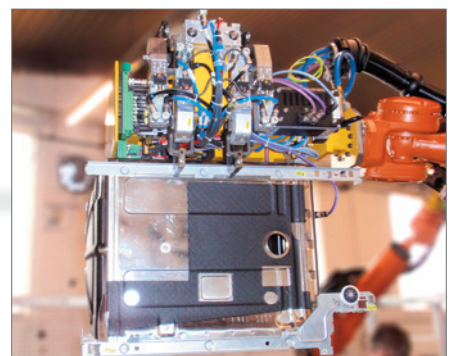

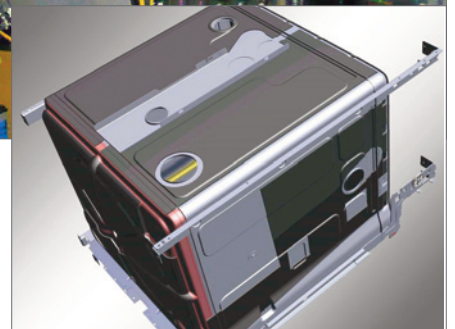

The reinforcement elements are to be attached to a dishwasher housing in a confined space. Due to the low numbers, cost-effective production is required.

The conntronic solution:

Concatenated, automated special welding system with only one welding technology for all tasks. The attachments are manually placed on a turntable and are then taken to the stations by robots.

Technical data of the system:

Space requirement WxD: 10.500 x 6.900 mm
Three CD welding stations: 1x Master, 2x Slave
System cycle time: 120 s

We develop a fitting solution for your individual requirements. Challenge us.
